Team Too Termite & Pest Control

Chad Roberts Appointed Account Manager

On October 1, 2007 Team Too appointed Chad Roberts to the position of Account Manager in their corporate offices located in Corona, Ca.

Chad began his career at Team Too Termite & Pest Control in June of 2007 after having worked for another local company for several years. Chad's prior experience was in the termite division of his previous employer as a termite salesperson, however, due to the extreme slow down in the termite industry in California Chad searched for alternative employment and was brought on at Team Too Termite & Pest Control as pest control department trainee. Chad stated "It was definitely an eye opener to have to start over again, but I fortunately found a great company that truly cares about their employees personal success as well as their own, we don't even consider ourselves "employees" it is truly a family around here".

Chad spent the first 30 days of his employment with Team Too Termite & Pest Control in their pest control training program and was licensed as a pest control technician in early July 2007. Once Chad was licensed he was assigned to a route territory and quickly showed his ability to handle tough situations and excellent customer service skills.

William Houtchens, President of Team Too stated "Chad has come into his own in our pest management department. As we looked to expand our operations he came in almost every day asking how he could play a bigger part in our company, his enthusiasm and drive were clearly contagious with others."

Team Too is a third generation family owned and operated pest management firm. The corporate offices are located in Corona, Ca. with branch offices serving all of California. Team Too is the industry leader in multi family and residential property pest management, and termite management strategies.
